Data processing in the association

Registration data (surname, first name, date of birth, address, telephone, email, bank details, web address of the artists) are processed by the respective functionaries of our association only for the fulfilment of tasks assigned to them. In detail this means:

- If the Executive Board needs registration data to carry out its tasks, it may access all participant data required for this purpose. This includes, in particular, membership management, collection of membership fees, sending out participation information, sending out newsletters, organising exhibitions and events, as well as invitations to tender and art awards (Call for Entries).
- The treasurer processes the participation data relevant for the collection of the participation fees, the cash auditors process the participant data relevant for the cash audit. These are first name, surname, postal address and bank details with payment data as well as access to the direct debit authorisation including signature, if the artist has given the association a direct debit mandate.

The purpose for processing the participant data is the pursuit of the association's purpose and administration. The legal basis is the binding registration for the **ARTiges 2023** competition (Article 6 (1) b) DS-GVO).
